ADVERSE: AI-POWERED AD CONCEPT & BRAND VOICE GENERATOR

Presented By:

Name : Hiral Athawale, PRN – 23070521507
Name : Pushkal Thakre, PRN – 23070521502

PROBLEM STATEMENT & PROJECT CONCEPT

PROBLEM STATEMENT

Traditional ad creation is time-consuming, subjective, and inconsistent.

- Copywriters and designers spend hours brainstorming slogans, scripts, and brand tones.
- Small businesses can’t afford professional creative teams.
- There’s a need for a smart system that can generate brand-aligned creative assets instantly.

PROJECT CONCEPT

AdVerse is an AI-powered tool that automates ad campaign creation.

- It analyzes brand or product details — including tone, target audience, and platform — to generate slogans, 15-second ad scripts, visual prompts, and hashtag strategies instantly.
- All outputs are compiled into a ready-to-share PDF deck, ensuring creative, consistent, and brand-aligned campaigns within seconds.

CORE CONCEPT

- **LLM-Based Prompt Engineering:** Multi-stage reasoning pipeline that tailors ad content based on tone, target audience, and platform.
- **Campaign Deck Export:** Creates a polished PDF campaign brief using ReportLab.
- **Streamlit Dashboard:** User-friendly interface with side-by-side ad ideas and images.

SYSTEM ARCHITECTURE

Input: Brand name, product description, tone, audience, platform.

↓

Processing:

1. **Prompt Layer: Multi-step instructions for LLM (persona → slogan → script → visuals → hashtags).**
2. **LLM Generation: Uses GPT-4 model via OpenAI API.**
3. **Data Structuring: JSON formatting for easy rendering.**
4. **PDF Builder: Combines all outputs into one campaign deck.**

↓

Output: Campaign deck (slogans, script, hashtags).

WORKFLOW DIAGRAM

User Input → Prompt Templates → LLM Response → Streamlit UI → PDF Export

Each stage performs:

- **Persona Generation** → Defines brand voice.
- **Slogan Generation** → 5 unique taglines.
- **Script Writing** → 15-sec video ad concept.
- **Visual Prompts** → 4 image ideas.
- **Hashtags** → Tiered relevance.

WHY ADVERSE IS UNIQUE

- **Seamless Fusion of Creativity and AI:** Goes beyond basic text generation by combining creative strategy with intelligent automation.
- **Practical Industry Relevance:** Designed for real-world marketing, branding, and startup use cases.
- **High Scalability:** Easily adaptable across diverse platforms such as Instagram, YouTube, and LinkedIn.
- **Interdisciplinary Innovation:** Integrates marketing insight, AI technology, and user-focused design into a single cohesive system.

EXPECTED OUTCOMES

- Generate full campaign decks within seconds.
- Reduce ad ideation time by 80%.
- Enable small businesses to design ads without creative agencies.
- Demonstrate Generative AI’s potential beyond text chat — into marketing strategy.

DEMO OVERVIEW

Live demo via Streamlit:

1. User enters brand description and target audience.
2. Click “Generate Campaign.”
3. View slogans, ad script, image prompts, hashtags.
4. Export as PDF Ad Deck.

CONCLUSION

AdVerse redefines the future of advertising by merging creativity with intelligent automation. It delivers campaigns that are faster, smarter, and deeply personalized, turning ideas into polished brand stories within seconds. A true blend of innovation, design, and data, AdVerse empowers anyone — from startups to marketers — to become a creative storyteller powered by AI.

THANK YOU
